VERIFICATION OF RECEPTION

AM 840 KXNT
THE TALK STATION

North Las Vegas, Nevada

Congratulations Mr.Sampson, your reception report of: (3/7/01)
Has been verified to be accurate.

KXNT operates on 840 KHz with a Daytime power of 50,000 Watts and a Nighttime power of 25 Kilowatts. KXNT uses the same directional pattern day and night. The KXNT antenna system consists of 4 towers in a parallelogram configuration. KXNT uses a Harris DX-50 digitally modulated transmitter.

The KXNT transmitter is located approximately 25 Miles North North-West of Las Vegas in Apex, Nevada.

The KXNT studios are located in Las Vegas at 6655 W. Sahara #D-208, Las Vegas, Nevada 89146 U.S.A.

Power down that night would have been at 17:45 PST. Interestingly enough you caught us doing maintenance, at full power, trying to find an arc in our phaser. I never thought that 3Db made much of a difference! Your location places you in a rather deep null, (385 Mv/Meter RMS) protecting WHAS.

My name is Tracy Teagarden; I am the Chief Engineer of the Infinity Broadcasting, Las Vegas stations. I hold a B.S. in Electrical Engineering from Ohio University, and I have a staff of three engineers to maintain our 6 stations.

All the best and happy Dxing!

Tracy B. Teagarden

Tracy Teagarden,
Chief Engineer
